# What about Hardware?

- 1) For paper forms like Consent and Dental History, you will need a TWAIN scanner. Most of our Clients LOVE the Fujitsu 6130 Scanner.
- 2) Microsoft WebCam - You can identify patients the moment they walk in!
- 3) X-Rays - You have multiple options:
  - 1) Continue using your film system and existing equipment
  - 2) Digital x-rays—We highly recommend **EvaSoft by Image Works!**  
**PRO TIP:** EasyDent also works with many Digital X-Ray and imaging systems, including Apteryx, Dexis, EVASoft, Schick, Gendex, Suni, TigerView, XDR, Visix, VixWin and more!
- 4) Bizcard Scanner 901 - Perfect for Insurance Cards, Licenses, etc.

## Scan Your Documents into our “Electronic” Filing Cabinet

The EDR Documents folder lets you easily set Tabs to organize your patient charts any way you want.

This Saves Office Space, Money, And Save Time.

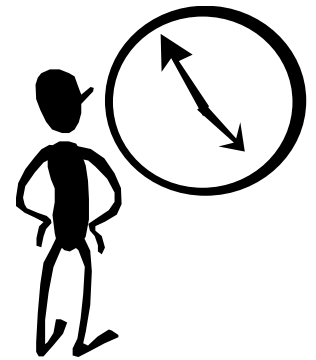

You can add folders and name them whatever you want.

Just call Data Tec; we would be glad to show you how to set these features, as well.

# We can provide *FREE* Chart Templates to *Save You Time!*

- You don't have to enter the same visit reasons over and over
- Take a look at our existing templates.....Examples include "Adult Prophy" "Child Prophy" "Crown Prep" "Initial Visit" "Restorations" and much more
- You can customize these templates to suit your practice.....or even create your own
- Once you're done, this can save you A LOT of time

## Reasons To Go Paperless:

- 1) Saves You Lots of Time
- 2) Easier to use
- 3) Integrates with all of EasyDent (Billing, Posting, etc.)
- 4) Never lose/misplace a chart
- 5) *It's totally FREE!*

If you have EasyDent, you've got the Paperless Charts Feature, it's build right in.
