## Employee Time Clock Navy Time Log

The Employee Time Clock software on your computer may be set to access the Navy Observatories Online Time to provide an extra log of time information. If so, from time to time (no pun intended) you may receive an error message if the Navy websites online certificate is in need of being updated. If this happens just reply "YES" to the 2 on screen prompts as shown below.

O Navylog Time Clock Internet Access − □ ×	Security Alert
	The identity of this web site or the integrity of this connection cannot be verified.
Security Alert	The security certificate was issued by a company you have not chosen to trust. View the certificate to determine whether
Revocation information for the security certificate for this site is not available. Do you want to proceed?	you want to trust the certifying authority. The security certificate date is valid.
Yes No View Certificate	The security certificate has a valid name matching the name of the page you are trying to view.
	The security certificate uses a strong signature.
	Do you want to proceed?
	Yes No View Certificate

As an alternative you could **de-activate** this extra time log all together (this will not affect your time clock report) as follows:

- 1. From the **Time Clock Menu** select the "**Utility Menu**" option.
- 2. Select the "Internet Time Log" option.
- 3. Un-Click the option labeled "Activate Internet Time Log".
- 4. Click Save/Exit

At each computer where you use the Time Clock you must use the TEST button below. If your Firewall prompts you for Internet access, you must tell it to AI WAYS allow access
