Electronic Claims

EasyDent directly generates electronic claim file data for Primary, Secondary, Estimates (Pre-Authorizations), and Re-Submittals in a proprietary format for use with Emdeon/WebMD.

We have had a relationship with Emdeon for many years and we have confidence in both their processing and their ability to keep on top of the latest insurance requirements.

When interfacing with our Emdeon Electronic claims options from the Forms menu, not only are your claims sent, but EasyDent also tracks that they were sent electronically.

There are other clearing houses (many are just an intermediate stop between you and Emdeon), that may try to get your business. EasyDent does have the capability to generate text image files of the insurance claim data. Some clearing houses can use it. That's up to you to interface with them this way if you like, we provide no direct support.

Considering the superior tracking and reliability of using Emdeon we believe they are still the best value for your business.

If you are considering another clearing house we would also suggest that you talk to your Emdeon Customer Service Representative at 888-255-7293, and tell them what you are considering and why.
